

Agostina's Master Class «The Dress of Your Soul» in Rovereto TN *****

Tutor > Agostina Zwilling

Teaching languages > Italian (English)

About the Master Class

issue

«The Dress of Your Soul» beyond material ...

The Master Class is aimed at those who want to go beyond material. It is dedicated to those who have consolidated the techniques and want to deal with another way of thinking and look at their individual talent through group dynamics. Eight days of intensive work using wool, textiles, paper, natural dye and a great desire to explore new frontiers. Playing with shapes, volumes, colors, values, images and find out the possible existence of your own spirit - intuitive and creative, new.

Everybody will be free to work with the material that it deems most appropriate. This is why we suggest that you bring apart from the material that you normally use, also what you want to experience on this occasion.

Some hints:

If you choose to work **just with fabric** we recommend to bring:

- 4 large worn out bed sheets or 10 yards of cotton cloth for making patterns
- 10 sheets of parcel paper, white
- a note pad with pen, pencil and eraser
- a calculator
- 2 large tip pens, indelible black
- a ruler 60-80 cm or one 80-120 cm
- a tailoring meter
- scissors to cut paper and plastic
- a sewing kit for hand and machine work
- a sketchbook, size A4 (21x30 cm) or larger
- pencils soft and hard
- pastel or aquarell colors
- masking tape, at least 1 ½ inches wide
- a glue stick Pritt
- sheets of carbon paper for tracing
- at least 10 yards of silk fabric
- at least 10 yards of lightweight woven cotton gauze
- a sewing machine
- your personal mannequin (we provide 5 mannequins - italian size 42 - to be shared)
- other materials you think are appropriate for your research su as industrial felt, pieces of your own handmade felt or laminated felt (nunofelt).

Dyeing

You will have an opportunity to explore some dyeing techniques, which will be practiced taking account of the time and space available in this occasion and therefore limited to small items.

If you choose to work with **felt or laminated felt** we suggest that you bring:

- a waterproof apron
- 4 towels
- 4 large worn out bed sheets or 10 yards of cotton cloth for making patterns
- a note pad with pen, pencil and eraser
- a calculator
- 2 large tip pens, indelible black
- a ruler 60-80 cm or one 80-120 cm
- a tailoring meter
- scissors to cut paper and plastic
- a sewing kit for hand and machine work
- a sketchbook, size A4 (21x30 cm) or larger
- pencils soft and hard
- pastel or water color set
- 2 rolls of masking tape, at least 1 ½ inches wide
- a glue stick Pritt
- sheets of carbon paper for tracing
- at least 10 yards of silk pongé 4/5, chiffon 3.5 and gauze weave, lightweight
- natural fibers such as hemp, flax, bamboo, nettle, as you want
- bubble wrap (heavy plastic, bubbles on one side only) - at least 10 yards
- large plastic foil to protect your table from paint
- plastic dish for water (500 cl) and spraying tool
- marseille soap, liquid or solid
- 2 swimming noodles 8-10 cm Ø, 120-180 cm long
- at least 1000 g of superfine merino 16 micron wool undyed
- at least 1000 g of superfine merino 16 micron wool colours of your choice
- at least 100 g of tussah silk undyed
- at least 100 g of mulberry silk undyed
- a sewing machine
- other stuff that you want to experience
- walking shoes

Material that can be bought on the spot:

- chiffon 3.5 silk fabric
- pongé 5 silk fabric
- merino xtra fine 16 micron
- merino xtra fine 14 micron
- extracts for natural dyeing
- macerated fresh leaves of birch, ash, walnut for natural dyeing
- mordants for natural dyeing
- bubble wrap 150 cm wide
- plastic floor foam 100 cm wide

Security, privacy and insurance

Italian Felt Academy – Master Class 2014

hosted by

Progetto Manifattura

green innovation factory

www.progettomanifattura.it

Progetto Manifattura is designed to be a model for sustainable growth that educates the public as it stimulates the green economy. It's a productivity platform that offers a mix of uses: offices, light manufacturing, test labs, research, education, and services. Access to plazas and walkways give people a chance to learn and participate.

Guiding principles

- Plan, realize and manage buildings and infrastructures dedicated to companies in the green economy.
- Offer a stimulating, creative work environment thanks to a combination of public and private activities.
- Build and remodel buildings and deliver systems that will have the lowest possible environmental impact.
- Promote innovation through a mix of education, training, research, development and production.
- Contribute to the development of innovative technologies that reduce consumption of non-renewable natural resources.

Context

The project is part of a wider sustainable strategy of the Autonomous Province of Trento

Environmental sustainability. With its precious natural resources, the Province of Trento is a place with a strong tradition of environmental sustainability. A balanced approach to natural resources has always been a guiding principle to the people of this region.

Economic sustainability. The Province of Trento is a leader in green economy strategies. The growing push of the private sector and the strong support of the provincial government is completed by a research platform with international reach.

Social sustainability In the province of Trentino social responsibility is a dearly held ideal among people and in the private sector. The desire to combine social, economic and environmental efforts is a characteristic that defines the province far over its borders.
